

RISK ASSESSMENT & METHOD STATEMENTS TRAINING COURSE

About

Risk assessments are a legal requirement and an integral part of the safety management process within any organisation. The Management of Health and Safety at Work Regulations 1999 brought about the concept of risk assessment for all work activities. If risk assessments are undertaken effectively and with thought, they can form the basis of the arrangements within any business. Syndicate exercises will form an important component of this training module.

Course Objective

To provide personnel with sound practical skills and knowledge to carry out thorough risk assessments and put in place suitable risk control measures, including valid method statements.

Who Should Attend

Personnel who are required to undertake risk assessments and produce method statements in their workplace. Also, managers with the responsibility to manage this process.
